

“

North Norfolk District Council is proudly teaming up with MakeMyHouseGreen. This fantastic partnership will ensure that residents have the support and necessary advice on adopting to solar and batteries, which will have a huge benefit on their yearly energy bills.

Through MakeMyHouseGreen, residents will be able to receive expert guidance, understand what's right for them, and receive a reliable installation – and they will receive a £500 discount as part of the scheme.

Cllr Adam Varley
Councillor for Climate Change & Net Zero

Why should you get solar with MakeMyHouseGreen?

- MakeMyHouseGreen is North Norfolk Council's trusted provider.
- They offer an easy-to-use solar calculator to help you assess if solar is right for you.
- £500 discount for all North Norfolk residents.

We want to make it easier for North Norfolk residents to understand your options, avoid potential mistakes, and have confidence that you'll get what you want if you invest in solar panels and/or battery storage.

How does it work?

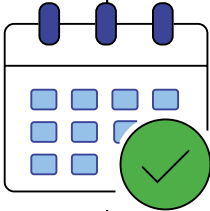

1 - Register Online

Find your potential savings and secure your automatic **£500 discount** by entering your details at www.makemyhousegreen.com/north-norfolk

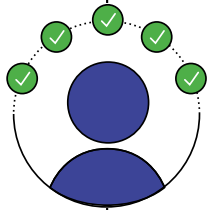

2 - Tailored Design

Explore their solar calculator, book a consultation with the team to explore a tailored solar system.

3 - Finalise your system

Arrange a survey to fine tune your potential installation.

4 - You Decide

You make a decision on whether you wish to proceed with an installation and secure your price with a £200 deposit.

5 - Installation

You'll be kept in the loop while your installation goes as smooth as possible. A seamless installation is aimed for in 6 to 8 weeks.

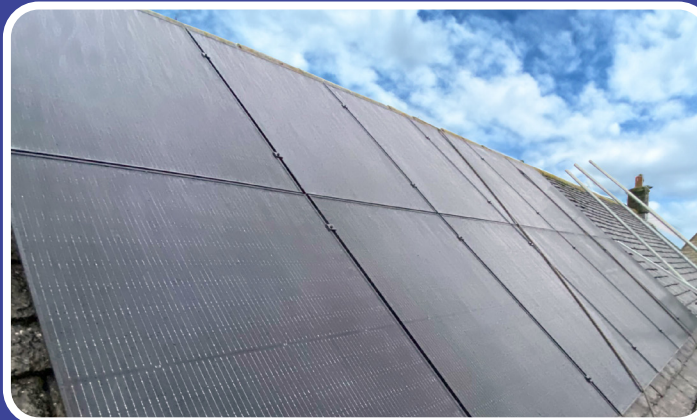

Testimonials

Our partner, MakeMyHouseGreen, has already helped many residents install solar.

Graham got 16 panels, two batteries and an EV charger installed:

"I'm very happy with MakeMyHouseGreen and the complete service they provide from consultation to installation."

Sue got 10 panels, two batteries, an EV charger and an immersion diverter installed:

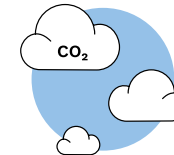

"It helped knowing the council were involved and were giving a discount to enhance the environment."

Solar panels & batteries are a great investment

Save on your energy bills

The average North Norfolk home could save around £1,000 a year on energy bills.

Reduce CO₂ emissions

Solar panels and batteries will save up to a tonne of CO₂ being emitted each year.

Great payback

The majority of homes will see a payback of 6-8 years, the panels will last for 25+ years.

Future-proof your home

Electrification is vital in the battle against climate change, and solar panels help you power electric cars, heat pumps and the technology of the future.
